BUHLMANN GROUP – COMPETENCE IN OFFSHORE CONSTRUCTION

(1)

The internationally operating **BUHLMANN GROUP** is a competent, reliable and innovative premium distributor specializing in steel pipes and tubes, pipe-fittings and accessories of the highest quality as needed in technical installations.

BUHLMANN GROUP is now responding to the growing demand for steel in the offshore industry. Customers can access a wide range of pipes, tubes, fittings and flanges in all regular material grades. Our strengths are based on a profound knowledge in the offshore market, worldwide presence and global networks.

As you can see in picture (1) there are several offshore topside applications where high quality steel is needed, e.g. for the construction of Helidecks or Living Quarters. For immediate needs we can service you through our stock of X Grades.

If you require detailed information about our offshore program, please get in touch with our specialists at offshore@buhlmann-group.com and visit us at our homepage www.buhlmann-group.com. Do not hesitate to take advantage of our advisory service for large project requirements.
