STEEL BEYOND TUBES

For 75 years, BUHLMANN has been known for steel tubes, fittings and flanges. Now it is time to extend the premium service our clients are used to towards other steel products.

Therefore, we now supply almost all kind of steel plates as well as profiles and beams in carbon, alloy and stainless steel. Of course, we also offer the full scope of additional processing, like shotblasting and priming, additional tests or 3rd party inspections.

- Sand blasting
- Priming
- Flame cut
- US resp. Z test
- 3rd party inspection
